easier to connect.

Agriculture

Agriculture represents the historical and traditional field of application for Faster quick-release couplings

Agriculture is the leading field of application for quick-release hydraulic couplings. For this reason, Faster offers a wide range of products specifically designed for the agricultural sector. Faster has developed a full range of products, covering all the hydraulic connections on regular tractors, both on rear hydraulic lines and front loaders.

Our product portfolio entails various types of couplings and Multifaster, alongside tailor-made solutions, such as castings and blocks, to meet the requirements from different manufacturers. Moreover, we have selected products specifically designed for harvesting applications.

ICONS LEGEND

Connection Under Pressure:
Allowed Male Half up to W.P.

Connection Under Pressure:
Allowed Both Halves

Connection Under Pressure:
Allowed Residual

Connection and disconnection
Under Residual Pressure both halves

Connection Under Pressure:
Allowed Male Half up to W.P.

Connection Under Pressure:
Not Allowed

Rear Hydraulic Lines

Lines to connect the hydraulic circuit to rear attachments, in order to power them. Some attachments may also require the «power beyond» configuration. Oil flows from the female couplings on the tractor to the male on the attachment, and returns.

Single Couplings

-
- **SLEEVE RETRACTION**
 - **PUSH - PULL**
 - **HIGH FLOW**

Faster offers a wide variety of couplings specifically designed for agriculture.

All single couplings solutions for agriculture are size 1/2" and interchangeable according to ISO 7241 part A.

Standard features for the Agriculture range are: carbon steel as material, CrIII as surface treatment, poppet valve and a maximum operating pressure of 25 MPa.

Sleeve Retraction

NV |  |

Male and Female couplings with poppet valve shut-off system.
Flow rate @ 0.2 MPa: 75 l/min.

Accessories and spares

3CPV |  |

Female couplings designed for panel mounting installation and connection to flexible hoses.
Connectable with male under residual pressure.
Flow rate @ 0.2 MPa: 75 l/min.
Breakaway function.

Accessories and spares

Push-Pull

6DNPV

Push-Pull female couplings for rigid mounting connectable with male and female under pressure, disconnectable under pressure with low effort. Equipped with one or two oil collecting ports to collect clean oil and reduce spillage. Flow rate @ 0.2 MPa: 50 l/min.

Accessories and spares

TARV 34

Seal kits

Oil Collecting System

3CKHF

Male and female compact Push-Pull couplings for agriculture connectable with male under residual pressure.
Maximum flow rate: 250 l/min.
Reduced dimensions: 15 mm shorter.
Breakaway function.

Accessories and spares

TM 12

Oil Collecting System

Power Beyond

Full set of flat face couplings for Power Beyond rear attachments, sizes in accordance with class 1 to 3 of ISO 17567 standard.

Power Beyond attachments allow the tractor to receive pressure feedback from the field through load signal line, in order to adjust oil flow and optimize performances.

Castings

Manifold Block

Cast iron block with 1/2" couplings screwed on.
Flow rate @ 0,2 MPa: up to 50 l/min.
Connection under pressure allowed depending on the mounted coupling.
Possible configuration: 3CFPV, 4SRPV, 6DNPV and High Flow couplings.

Accessories and spares

Semi Integrated Block

Cast iron blocks equipped with two semi integrated cartridges, available both poppet valve ISO 7241 part A and flat face ISO 16028. Available size: 1/2" and 3/4". The same block is suitable for both ISO A and Flat Face cartridges, easy interchangeable to ensure flexibility. Push-pull connection. Great ease to connect and disconnect agricultural implements thanks to relief of internal residual pressure ensured by one dedicate lever for each line. Breakaway feature. Replacement of the lever does not require disassembling of the block.

Accessories and spares

Fully-integrated Cartridge

Cast iron block with integrated 1/2" cartridge.

Flow rate @ 0,2 MPa: up to 55 l/min.

Connection and disconnection under pressure allowed. Castings available with different configurations: series 4 (connection assisted by lever), series 5 (connection assisted by lever, no male depressurisation while disconnecting) and series 6 (no need of lever).

Accessories and spares

Cartridge

Mask Series 5

4BM TA D

Fully-integrated Universal Cartridge

Cast iron block with fully integrated cartridges, connection assisted by lever.

Possible to fit either poppet or flat face cartridges in 3 different sizes: 1/2", 5/8" or 3/4".

Flow rate @ 0,2 MPa: 50 l/min for size 1/2".

Connection and disconnection under pressure allowed.

Dust cap

Front Loaders

Lines to connect the hydraulic circuit to front loader attachments to power them. The number of lines varies depending on the number of functions required. Very often there are also electrical connections.

Multifaster are the best solution for this type of application, granting comfort and compactness.

Multifaster for Front Loaders

Multifaster are the market reference to connect multiple lines, allowing an effortless connection even with residual pressure in the system. Each product entails a different combination of elements, such as number of lines, coupling size, lever and electrical connectors. The number of lines varies according to the functions performed by the attachment. Tractor front loaders are a typical application for Multifaster.

MultiFaster

PC206

MultiFaster compact. It allows connection with mobile plate or stand-alone counterpart couplings, 2 lines size o6.

The disconnection of stand-alone counterpart couplings is made by dedicated push buttons. This feature can be extended to all MultiFaster range.

Accessories and spares

KIT3FN

Seal kits

P508

MultiFaster 4 lines, size o8.

A brand new feature added to our MultiFaster: the automatic dust cover. A new addition applied to ease and facilitate the connection, giving the user the possibility to automatically open the dust cover, adding more comfort to the manouvre.

This system is patented and soon a kit with this solution will be available.

Accessories and spares

KIT3FN

KIT2FN

Seal kits

Full set of flat face couplings for Power Beyond rear attachments.
Faster offer for Power Beyond covers all ports composing the Power Beyond configuration:

Load Signal Port	Drain Port
Return Port	Pressure Port

Sizes in accordance with class 1 to 3 of ISO 17567 standard.

- Class 1 – Up to 45 l/min
- Class 2 – 45 to 74 l/min
- Class 3 – 74 to 100 l/min
- Class 4 – 100 to 220 l/min

Faster couplings range for Power Beyond applications

Flow Class 1
Up to 45 l/min

Flow Class 2
45 to 74 l/min

Flow Class 3
74 to 100 l/min

Flow Class 4
100 to 220 l/min

Harvester/ Combine

Combine/harvester machines combine in one single process three harvesting operations: reaping, threshing and winnowing. Combines are equipped with removable heads, each of them designed for a specific crop. Removable heads can be hydraulically connected and disconnected by simply using Multifaster.

Multifaster for Harvesting Applications

Faster offers a range of Multifaster specifically designed for harvesting applications.

Multifaster ensure a safe and quick connection and disconnection between the header and the harvester. This allows to easily dismantle and transport the harvester from one field to another. The Multifaster allows a very quick and safe connection and disconnection of the header, which can be replaced according to the operation that needs to be performed by the operator.

MultiFaster

PC206

MultiFaster compact. It allows connection with mobile plate or stand-alone counterpart couplings, 2 lines size o6.
The disconnection of stand-alone counterpart couplings is made by dedicated push buttons.
This feature can be extended to all MultiFaster range.

3PLX

Multiconnection 2 lines dash o4 and 2 lines dash o8, with 3 empty seats suitable for electrical connectors. Flat face couplers, CrIII plated. Plate available in two versions: aluminum natural color sandblasted finish, and black painted. Multiconnection is MARKET interchangeable, suitable for Claas combine application.

Accessories and spares

KIT3FN

KIT2FN

Seal kits

Automatic Connection

MultiFaster suitable for Harvesting, with automatic alignment system. Fixed plate designed to self-align with mobile plate to complete connection. This kind of product allows the operator to complete the connection with safety, comfort and time saving. This MultiFaster can be customized with addition of electrical connectors.
